**situation:** Refurbishment of an ageing lecture theatre with poor acoustics. The architect desired a result that only Atkar Au.diGroove could deliver via its warm timber finish and seamless design. Excellent acoustic outcomes were also critical within tight budget constraints. **solution:** Atkar supplied the product within the time frame, installation was efficient and the acoustics have been vastly improved. Both client and architect are delighted with the result. View the Au.diGroove gallery at [www.atkar.com.au/ag](http://www.atkar.com.au/ag)

- 1\_ Walls transformed
- 2\_ Perfect corners
- 3\_ Acoustic excellence
- 4\_ Unobtrusive and effective
